FUNDS

Our Investment Funds in Luxembourg, Hungary and Singapore were set up in order to meet our Clients' diverse risk objectives. Primus Wealth developed its own in-house investment desk with highly trained and experienced professionals delivering the most effective asset management. Our professionals run the day-to-day trading, which is based on Primus's own investment model. We offer low, medium, high and ultra-high risk investment policies taking into account the risk appetite of our clients.

Our US subsidiaries, in cooperation with US trust companies, are at our Clients' disposal offering US trust and investment fund services. US trusts offer great advantages for non-US residents looking for uncompromised asset protection with the possibility of a tax-exempt income. Primus Wealth's US mutual investment fund offers unique investment opportunities for non-US resident investors. We recommend our US services to those who aim to protect their privacy and want to realize higher yields with tax exempt income.
